

ABILITIES SOLUTIONS - Assess, Develop, Employ

is proud to present a success story about...Hakeem

Hakeem embarked on his quest for independence in August of 2013, when he began his training at Abilities Solutions. He participated in various pre-employment activities while working in Transitional Employment, including Job Club and

personal finance planning through our PNC volunteer partners. These programs helped equip Hakeem for the interview process and for transition into the competitive job market. His first interview was with Amazon. They recognized his outstanding work ethic and determination and immediately offered him the position. His training and experiences at Abilities Solutions played a critical role in his success. We are very proud of Hakeem...he has bravely overcome many challenges during his young life, and it has been a privilege to help him reach his personal and professional goals.
