

CENTER FOR FAMILY SERVICES - Mother/Child Residential

is proud to present a success story about...S.B., in her own words

"I am a former resident of Center for Family Services' Mother/Child Residential Program. I was homeless with a child, nowhere to go, no one to turn to, and without much hope. Fortunately, I was able to apply for assistance and got placed at the Mother/Child

Residential Program. The staff there were wonderful, and they gave me the confidence to take steps to achieve my goals. While I was there, I took advantage of the classes, counseling, and resources that were available to me. I got my certificate for Home Health Aide, got a job, and found an apartment with Temporary Rental Assistance. It has been well over a year now, and I have maintained my independence. In fact, I have just been offered a job paying \$14.00 per hour! I am so happy that I don't have to depend on anyone, not even welfare! I am truly grateful and humbled for the time I spent at the Mother/Child Residential shelter. It truly changed my life!" -- S.B.
