

GIRL SCOUTS OF CENTRAL & SO. NJ – Leadership Experience

...is proud to present a success story from a mother about her 2 daughters!

“In my personal opinion, Girl Scouts is an extremely successful program. My two daughters have been in Girl Scouts for the past three years.

First, they’ve taught my girls about volunteering and giving back to their community. For example, a few weeks ago we had car trouble, which necessitated my walking the girls to a store. On our way there, we passed a cemetery with trash thrown on the grounds. Both my girls ran over and started cleaning it up. Not for a thank-you, but just to help.

Secondly, it has also taught them the value of good friends. My oldest daughter has had some difficulty in the past making friends, and has mostly kept to herself. After a few meetings at the Girl Scouts, I began to see a change in her. She became much more social than ever before.

Finally, I have seen my daughters grow in so many ways. Whether it be socially, physically or mentally, they’ve learned so much. I’m proud to be a Girl Scout mom. To have had the chance to watch these seedlings bloom into amazing ‘Daisies’.”
