

REPAUNO PRESCHOOL DAY CARE CENTER – Preschool Program

...is proud to present this success story about...Bobbi

After unsuccessfully placing her child in several preschool programs, which were incompatible due to hours of operation and pricing, Bobbi came to Repauno Preschool Day Care Center at her wits' end. She needed a full day preschool program coupled

with full-time childcare, so that she could work a full-time job in order to support herself and her two children. Since enrolling her son at Repauno, she has had better attendance at work. Her son Mason is now on track and thriving. He loves to learn about letters and spell words! Bobbi is so appreciative...she no longer has to worry about where her child is and who is watching him. He is on a schedule, working with the same teachers/caregivers each day, receiving a balanced breakfast, lunch and PM snack. Mason gets to play outside and interact with children his age...he's building the cornerstone of his educational career now at the preschool level, which will lead him for the rest of his years. Also, this year we were able to collaborate with PBF Refinery to supply Bobbi and her boys with Christmas gifts through their Adopt-A-Family Program.
