What sets us apart is that members engage hands-on in driving change in our community. Beyond an annual financial contribution, members can invest their time and talent, professional expertise and knowledge to advance causes we care passionately about. Through membership and other fundraising efforts, our program has been able to support and fund over two dozen programs, empowering women of all ages.

Come see the difference, be part of the change.

Volunteer leadership is core to the success of Women United. Creating long-lasting change in the area of education, financial stability and healthy lifestyles requires focused, results-oriented leadership. At the same time, leaders enjoy a unique opportunity to pool their time, talent and financial resources to experience firsthand positive impact women can have on a community.
