

What impact has United Way funding had on Big Brothers Big Sisters Independence?

Support from United Way of Gloucester County helps ensure that children and youth in the county have access to high-quality, one-to-one mentoring relationships that are safe, consistent, and life-changing. This funding allows us to cover essential program costs, including volunteer screening and training, professional match support, and youth engagement opportunities while they wait to be matched. Simply put, this investment makes it possible for more Gloucester County kids to experience the long-term impact of having a caring adult mentor in their lives.
