

United Way  
of Gloucester County

# Be The One!

When we come together we can make one big impact on many lives. One by one, we will make a difference

United Way of Gloucester County helps to fund 15 partner agencies that focus on **education**, **financial stability**, and **health**, so that we can continue to create opportunities, inspire hope and build a stronger community.

Reading programs throughout the community help children develop skills to be successful in school.
