

What impact has United Way funding had on the Center for Displaced Homemakers?

Funding from United Way of Gloucester County directly helps County residents at the Center for Displaced Homemakers become more self-sufficient by giving them the skills needed to succeed in today's job market. This support allows us to provide individualized career services, technology training, and employment guidance. Without this funding, we would not be able to offer the level of time and expertise required to help clients secure stable employment and build brighter futures.
