

## Food Bank of South Jersey Presents:

*A Success Story featuring...*

**Joseph**

Joseph attends school in Glassboro, and is a recipient of Food Bank of South Jersey's Summer Meals Program near his home. Joseph was always looking to make sure the lunches arrived while participating in camp projects. When asked about it, he said, "I don't always get to have lunch in the summer and sometimes I am really hungry." Like many low-income youth, Joseph's parents do their best but there is not always enough food, especially when school is out of session and free or reduced lunches are not available. Joseph always smiles, especially after he has had his lunch, saying, "It's fun to sit with my friends and eat. And then I can play sports more when I'm not hungry."
