

## What Impact Has United Way Funding Had on... GLASSBORO CHILD DEVELOPMENT CENTERS?

**United Way of Gloucester County funding enables GCDC to meet its increased payroll obligation to support the three staff needed to supervise 30 students from ALICE households during the entire year. Mothers or female caregivers are still the last to return to the workforce post pandemic, and this opportunity to support them will impact their family's ability to begin to recover from losses in earnings, food, housing, and other necessities. Glassboro Child Development Centers would not be able to support the 30 students with reduced or waived fees without this funding. But with it, thirty kids will now not slip through the cracks. Consequently, they will develop improved executive functioning and social skills; for those families, there is a huge impact.**
