

## **Glassboro Child Development Center Presents: A Success Story by Belinda About How GCDC Helped Her Children & Grandchildren**

“Close to 30 years ago I began utilizing the services of GCDC. Being a single mom working long hours, I found a place where I could leave my son and not worry about his care in my absence. It was like a home environment. First, there was a warm atmosphere; next, the staff there showed genuine care for my son. Now, 30 years later, I can say that that same atmosphere plus more is being displayed at GCDC. My two grandsons now attend GCDC, and the afterschool program is outstanding. The children are assisted with their homework, and they even have access to teachers from the school they attend. Any special needs that can be met are put into place. I love how they help keep the children in a caring environment for one another. The teachers show patience, kindness, and cheerfulness with the children. My grandchildren love the program and always tell me I came too early to pick them up! Thank you GCDC for being an outstanding, next-to-home environment for my children and grandchildren!”
