## Girl Scouts of Central & Southern NJ - Leadership Experience

## A 2021 SUCCESS STORY FEATURING...

### *TWO OF OUR SCOUTS*

At a recent badge pick up, one girl stood with her mother, masks on, and they both talked about what their favorite parts of Girl Scouting are - listing the Girl Scout Cookie Program, going on trips with friends, and even possibly going camping! Despite their masks, it was clear both were smiling and excited to have the chance to connect with Girl Scout staff again.

Another Cadette Girl Scout, who is currently working towards her Silver Award, talked about how it was the easiest place for her to make friends, and how she'd connected with people she'd already known, as well as met new girls she wouldn't have talked to--she also said, "It's a great experience if you're a young girl, because it's where I learned to empower myself."
