

Girl Scouts of Central & Southern NJ

Leadership Experience

UWGC IS HONORED TO PRESENT A GIRL SCOUTS SUCCESS STORY STARRING...THE KING GIRLS

Girl Scouts has changed the four of my girls in such a positive way! The program has also helped my youngest daughter Aubree out of her shell. My daughters enjoy learning things about nature, about different cultures, the meaning behind being a Girl Scout, and the history behind it. They also enjoy very much when it's cookie season!

My girls went on many trips and learned many things...their favorite trip was day camp. The girls participate in community service projects, which helps them to understand and realize there are many people in this world who need help. They learned that it's good to volunteer and help people who are in need, or even to lend a hand to a neighbor or a friend. I've seen a lot of growth in my daughters since they've been in Girl Scouts, including wanting to help clean up trash outside to holding doors for people while walking in a store. They are always trying to do a good deed and I really believe they learned that from being in their Troop and learning Girl Scouts values.

Sincerely,
Kelly King
