

## A 2022 Success Story for... Glassboro Child Development Center

DJ began attending our Camp program in summer 2021 through our reduced cost tuition program. Mom works at a local small business in town and needed her son to begin to socialize with peers and work on academic recovery. He attended the school district Extended School Year (ESY) program in the morning and then came right down to our camp program. After a short time, with the Summer Basic Skills Supervisor's blessing, DJ, who has ADHD, dyspraxia, and autism, left ESY and attended our camp full time as he was responding better to our programming and our support staff. His mom, Taylor, is grateful for the support and gave tearful testimony that this summer DJ had made his first friends organically in our program.
