UWGC IS HONORED TO PRESENT A GCDC SUCCESS STORY STARRING...*THE RODRIGUEZ FAMILY*

Elizabeth Rodriguez is a single mom with 2 teenage children, who is helping her brother-in-law raise his three children. We asked her how our grant-funded summer program has impacted their lives, and this is what she told us: “Our children would not have had the opportunity for this camp had it not been for the grant provided by the United Way of Gloucester County. Three kids, ages 8, 9 and 10, attending the program is a huge lift off of our shoulder financially and emotionally. Usually, they would be home with family members each day watching TV or playing video games. Camp Horizon allows me to get to work on time every day and not have to stress about driving 4 towns over to drop them off to their grandmother. It gives them the chance to experience new things like the Crayola Experience, Medieval Times, Longwood Gardens, and the Phillies game – things they have never done before. We are a family of seven so these things are not very easy for us. We appreciate everything that this camp and the grant has offered our family this year.”
