

HOLLYDELL

PRESENTS:
A SUCCESS STORY STARRING ...
Bria

Bria is a happy, energetic young lady who attends the HollyDELL Adult Day Program. She lives at home with her mother, father, and brother (when he is not away at college). Her verbal skills are limited, and she requires hands-on supervision while in the community. However, Bria is independent in many other ways. She loves the day program and participates in all activities offered to her. She attends Get Fit at Rowan University two times per week with her peers and staff. Bria participates in many daily living skills such as baking, vacuuming, and cleaning up after herself. She even assists her peers. She enjoys music and educational activities as well. Bria is an excellent reader and may join the HollyDELL Adult Program Book Club.

Bria's favorite things to do while attending the adult program are going on outings to restaurants, farmers markets, and the mall. She also loves to visit Wheaton Village. The staff support her with verbal prompting and supervision to ensure her safety. Bria continues to expand in many ways with the assistance of the direct support providers in the day program. She is a true pleasure to have at the HollyDELL Adult Program.
