

LITERACY NEW JERSEY, GLOUCESTER COUNTY
PRESENTS:
A SUCCESS STORY STARRING ... *Juna Claude*

Juna Claude is originally from Haiti. She began working with Literacy NJ – Gloucester earlier this year, and, in the beginning, could not communicate in English other than “hello” and “goodbye”. She was a referral through our partnership with Mosaic Family Success Center in Glassboro. Juna was very shy at first. Once she found her voice, however, she became a vital member of the class, even hosting a cooking class for her tutor and classmates. Once the meal was complete, they all sat down and ate together while Juna spoke about her homeland. Juna constantly has a smile on her face and is always eager to learn with her tutor. One of her goals includes filling out job applications to get a job. She would also like to be able to work more efficiently on a computer. In working toward her goals, her tutor has been helping her learn how to navigate YouTube, and she has been watching tutorials on how to interview for jobs.
