

Literacy New Jersey, Gloucester County Program Presents:

A Success Story featuring...

Punnipa

Punnipa, a Deptford resident, emigrated to the U.S. from Thailand. Her husband and children always had to assist her with speaking to neighbors, ordering at a restaurant, shopping in a store, and speaking to doctors. In the winter of 2022, once her children were grown and moved out of the house, she came to Literacy New Jersey seeking help with her English language skills to increase her independence and involvement in her community. After meeting at the Gloucester County Library in Mullica Hill with her tutor Anne for nearly two years, Punnipa has met a myriad of personal goals, including reading her own medical prescriptions, writing her shopping lists, and ordering lunch on her own. Punnipa even obtained her own library card, to utilize all the resources her local library has to offer. We are so proud of Punnipa and her achievements!
