

**THE CENTER FOR PEOPLE IN TRANSITION
PRESENTS:
A SUCCESS STORY STARRING:
*A Client in Need***

This particular client began working with The Center for People in Transition in November 2022 because of the availability of services and funding for various training and certificate programs. Our client was able to complete the course for “Medical Billing and Coding” while working full time at night at Amazon, and all while pregnant with her son who was born in February 2023, and in addition to caring for her four children during the day. She is now working in the medical field doing what she has always wanted to do.
