## Repauno Preschool Day Care Center - Infant & Preschool Childcare and Early Education

## A 2021 SUCCESS STORY FEATURING...

### JESSICA

Our client, Jessica, a single mother just out of the military service, needed a caring and reliable place for her three (3) year old child. Being in a new environment, she didn't know where to turn. Fortunately, she heard about Repauno from another one of our clients and she checked us out on Facebook and called for some information. We told her about the center and how she could be eligible for childcare based on her income. In addition, we put her in touch with a program for affordable utilities and rental assistance. Before long, she had enrolled her child into our preschool program and she has a stable place of residence that she could not otherwise afford. We have since had the honor of seeing both Jess and her child blossom, becoming more confident and more settled. Jess took advantage of the help that was given to her and studied hard. She is now an EMT, giving back to the community that accepted her. Her child has grown from a shy, introverted toddler into a happy, healthy and well-rounded little girl who will be graduating our Pre-Kindergarten class in 2021!
