

## What Impact Has United Way of Gloucester County Had on These Programs...?

### Samaritan Hospice

The cost to provide grief counseling for residents across our five-county region has only increased in recent years, as the parallel number of patients cared for has also increased. The funding from United Way of Gloucester County covers just over 25% of the extrapolated percentage cost associated with the expenses to support Gloucester County residents.

### Volunteers of America, Delaware Valley

All funding received through United Way of Gloucester County goes toward providing services to individuals experiencing homelessness who would otherwise be ineligible for emergency shelter services. During their stay, clients served will have the opportunity to collaborate with case management to establish a written plan that details supports, activities and resources required for the individual to achieve personal goals...including education services via the McKinney-Vento Act...and develop strategies for accessing permanent housing.
