

**Scouting America,
Garden State Council
Presents:**
A Success Story featuring...
Our Volunteers

This past year, I have received numerous heartfelt thank-you messages from volunteers who expressed gratitude for the support I provided in guiding them through a new experience. One particular success story stands out: a volunteer shared how they felt empowered and confident while leading a group of youth from different spheres of life. They expressed how our training helped them create a more inclusive and supportive environment for these youths, making a meaningful impact on their lives. Knowing that my guidance has helped volunteers build stronger connections with the youth they serve is incredibly rewarding.

- Beth Ann, Rowan University & Garden State Volunteer
