

What Impact Has United Way Funding Had on... SCOUTING AMERICA, GARDEN STATE COUNCIL?

United Way of Gloucester County funding is transformative for our Volunteer Focused Training Program. This support would allow us to expand our current training options by complementing our online Scouting University with an in-person, all-day training event. While some topics are already available online, many volunteers with different learning styles prefer hands-on, interactive training. This funding would enable us to host expert-led sessions focused on three key topics identified as most needed, specifically tailored to Scouting. By enhancing accessibility and tailoring content to volunteer needs, this program will improve youth engagement, increase retention rates, and build stronger, more inclusive units. Establishing a sustainable training infrastructure ensures long-term impact, creating lasting, positive change in how we serve our community's youth.
