

## **The Arc Gloucester Presents: A Success Story About Pam**

Pam began coming to camp approximately 10 years ago. She was very shy and lived at home with her dad. Both were very nervous about Pam staying at camp, but she embraced the experience and couldn't wait to come back. She blossomed more every year. Sadly, Pam lost her dad a few years ago, but within the last 3 years Pam has become so independent she now lives on her own and has a job in the community. She is an active contributing resident of Gloucester County. This year, she expressed how much Camp Sun 'N Fun has meant to her and credits the program with being able to grow and become more independent every year. She was so excited about the Social Groups programming that she used the opportunity to continue discussions and establish a self-advocacy group with her fellow campers. She has continued that communication ever since. Pam is very proud of her accomplishments and is grateful for the program and the support of the United Way of Gloucester County.
