## The Arc Gloucester Camp Sun 'N Fun

## A 2021 SUCCESS STORY FEATURING...

### **BRIDGET**

Bridget Kohler really enjoyed virtual camp and so did her mom. They both participated every day. Bridget does not often participate much at regular camp preferring instead to be in the sidelines and just observe. She clearly enjoys being here but sometimes too many people are overwhelming. When we tuned in to have our first sessions, we saw her face first. She lit up like a light display! She was so happy to see people from camp. She sat for the whole activity and eagerly participated. Mom enjoyed spending the time with her during the sessions. Mom called us later the first day to tell us how much she enjoyed it, and how she was able to really see firsthand why her daughter liked camp so much. She said she saw that we celebrate Bridget for who she is, not who she should be. That is Camp's main goal and it was nice to have a parent validate it. It is also nice to know she misses us when she rarely says much at all.
