

# What Impact Has United Way of Gloucester County Had on These Programs...?

## YMCA of the Pines, Gloucester County

Funding from the United Way of Gloucester County impacts the overall quality and accessibility of our School Age Child Care program. This program prides itself on offering state of the art enrichment opportunities for children before and after school. Our kids get the opportunity to experience innovative team building and cooperation games, arts and crafts that will inspire them for years to come, and many other activities supporting by funding from United Way. Our program also becomes more accessible for families in need. Annually, we provide over \$17,000 in assistance for working families who need child care before and after school. Without this assistance, many of these kids would not have the opportunities to excel academically and socially that a before and after school program can provide.
